

AMSE at the World Health Summit Regional Meeting, 19 – 20 April 2018, Coimbra / Portugal

Summary

The meeting was entitled “We are creating together the Future of Global Health”. In 20 workshops and 4 key lectures, topics such as Biomedical Education for a Changing World, How to change the Curricula to include Global Health and many others were discussed. The meeting brought together leading researchers, physicians, government officials and representatives from industry, non-governmental organisations and healthcare systems worldwide.

Peter Dieter could get contact to many participants and introduced AMSE and its quality assurance program which was very well received.
